--	-------------------------------------

4. Offer price

You may submit your capacity offer using price laminations, which allows you to offer different prices for different amounts of capacity from the same demand response resource. The following example illustrates how a total capacity offer can be structured using price laminations.

Price lamination example:

Participants can break their total capacity offer down into parts with different prices if needed. For example, if your total capacity is 10 MW, you might offer 3 MW at \$150/MW-day, 5 MW at \$200/MW-day and 10 MW at \$400/MW-day.

#	Capacity price (\$/MW-day)	Cumulative quantity (MW)
1	150	3.0
2	200	5.0
3	400	10.0

4. Offer price (continued)

We allow up to 10 price quantity pairs. Please list your offer in ascending order of price, with:

- Prices rounded to the nearest whole dollar
- Capacity rounded to one decimal place
- Cumulative quantities adding up to your total capacity offer
